

# Yannick Gloster

577 North Hope Ave., Santa Barbara CA 93110 | yannickgloster@gmail.com

---

## Objective

To contribute in specific projects or general support in a Hi-Tech, fast pace company. My expertise and interests are to focus on the field of computer science and gaining real-world work experience while continuing to learn.

## Education

### **Integrated Masters in Computer Science (in progress) (5 years) | April 2023 | Trinity College ,Dublin, Ireland**

- Major: Computer Science
- First year coursework: Digital Logic Design, Electrotechnology, Introduction to Programming, Introduction to Computing, Computer and Society and, Mathematics

### **Dos Pueblos High School | August 2014 - June 2018 | Goleta, CA**

- Graduated with a GPA of 4.1
- SAT: 1480 / 1600 (Top 99% of the US) | ACT: 32 / 36
- 17 rigorous academic classes: AP (Advanced Placement)/IB (International Baccalaureate) /SBCC (Santa Barbara City College) Dual Enrolment classes

## Selected Key Attributes

- |                    |                            |                               |
|--------------------|----------------------------|-------------------------------|
| • Self-driven      | • Recognized leader        | • Video filming               |
| • Team player      | • Effective presenter      | • Video editing               |
| • Creative thinker | • Bring task to completion | • Programming                 |
| • Positive outlook | • Focused, organized       | • Basic circuit design        |
| • Entrepreneur     | • Curious, enjoy learning  | • Technical skills / hardware |

## Skills & Abilities

### **SELF-DRIVEN**

- I can quickly adapt to new environments and ideas and can navigate through complex problems while simultaneously learning in a new environment. I am good at figuring things out as I go along. I will not quit until I reached a satisfactory solution.

### **LEADERSHIP**

- In High School, I became the producer (the leadership role) of our student run and produced TV/Video production class of 45 students. In this role, I led the effort to adapt new technologies in live video production to improve our daily news show for all 2,000+ students on campus. I helped those around me to achieve greater things while simultaneously learning more myself.

### **COMMUNICATION**

- I have been recognized to have strong verbal and presentation skills. I am comfortable developing and preparing presentations and use them to organize and motivate others. I am able to take a complex or challenging project and articulate the concepts, tasks, and ideas into smaller achievable goals.

- I am comfortable working with cross-functional teams and understand the value of multiple inputs to achieve something greater.

## **OTHER SKILLS**

- Programming Languages: Java, HTML, CSS
- Proficiency in Adobe Premier Pro and Adobe After Effects for video editing, color grading, and light VFX
- Technical Camera Skills (directing, shot composition, etc.)
- Technical: strong understanding of hardware and equipment and how to make it work together
- Language (Fluent): French

## **Experience**

### **PERSONAL PROJECT | SAILINGSCORE | MAY 2018-PRESENT**

- Began developing a race scoring software in Java for my Advance Placement Computer Science final project in high school. I have been slowly improving it, just recently implementing reading and writing of data to a .CSV file.

### **ATHLETICS | SAILOR & INSTRUCTOR | 2009-PRESENT**

- Began racing in sailing at age 9. Over the last 3 years, I have competed in 3 World Championships, 1 North American championship, 1 UK National championships and 1 US National championships. In 2017, I placed 2<sup>nd</sup> Youth in the World RS Aero series (France). I transfer my competitive spirit in seeking improvements into my work.
- I have also completed the technical sailing training requirements, CPR-First aid certification in the US and in France and passed my motorboat certification to become a sailing instructor in France. I will be fully certified for teaching sailing anywhere in France after a 2 weeks hands-on instructing course that will be completed in late summer 2019. Becoming a sailing instructor is the opportunity to continue developing my leadership and teaching skills.

### **EVERY 15 MINUTES | SHORT FILM | JANUARY – FEBUARAY 2018**

- I co-wrote, co-directed, co-shot, and co-directed a short film on drunk driving through a program with the state of California. The film was shown to the entire senior class and had a powerful impact on students. Through this project, not only did I show my talent in video production, but also in team management and working with other professionals such as Santa Barbara County Sheriff's Office, Santa Barbara Cottage Hospital, and more. The full film can be found here - <https://youtu.be/AKya9w4UpyE>.
